Product Mission Statement

Our goal is to create a product that demonstrates an aspect of STEM in an engaging manner so that K-12 students will learn about and become more interested in such topics.

Shared Goals

- Foster open communication within the team to encourage new ideas and provide feedback for one another.
- Efficiently manage time and resources to maximize the outcomes of the final product.
- Focusing on delivering high quality work to exceed expectations and demonstrate the team's knowledge to others.
- Ensure each team member is in agreement on each deliverable prior to submission, ensuring consistent work throughout the entirety of the project.
- Develop a unique and innovative solution that demonstrates a scientific/engineering concept through an interactive, physical device.
